

What's new!

By In-Yacht Team - December 2023

- Schedule a recurring Form
- Self-Service Password Reset
- Scrolling Menu
- Forms Attachment
- Expand grouped list on click
- Performance Improvements and Minor Fixes

Click [here](#) and contact us to know more about the update!

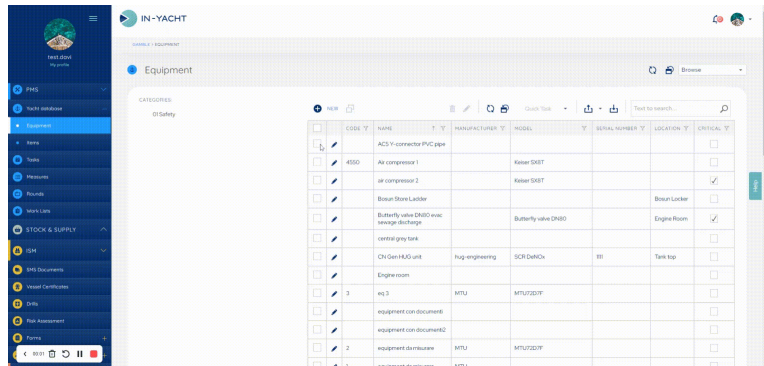

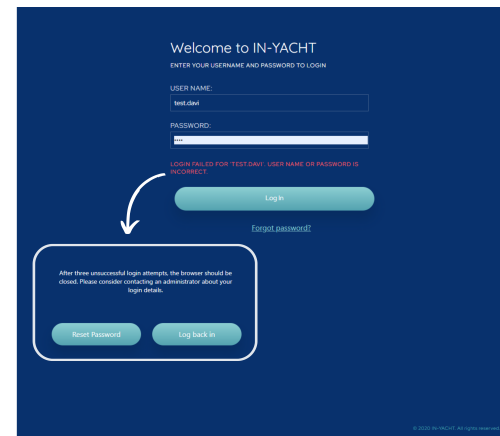

Schedule a recurring Form

You will now be able to plan the form recurrence. For recurring forms you will receive the calendar notification and the pop-up in the dashboard as always. Staying in line with regulations will be even easier

Self-Service Password Reset

The Expense section now presents a better and clearer layout, which will allow you to see what has been approved, rejected or is still in draft.

When performing a round, you can now benefit from detailed and easy-to-read instructions, **TRY IT OUT ON OUR MOBILE APP!**

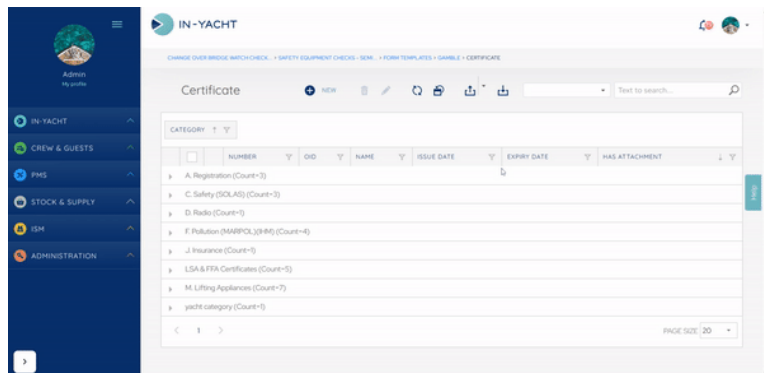

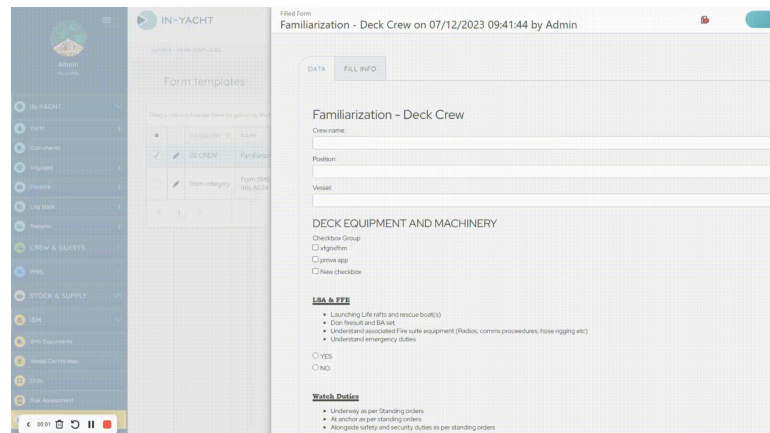

Scrolling Menu

The left-side menu will now be independent and have its own scrolling features, this way you can expand

Forms Attachment

From this update, you will be able to Attach all the necessary documents to your Forms, using the drag&drop feature.

Expand grouped list on click

The user experience always comes first for us, this and other improved features will make navigation even more user-friendly.

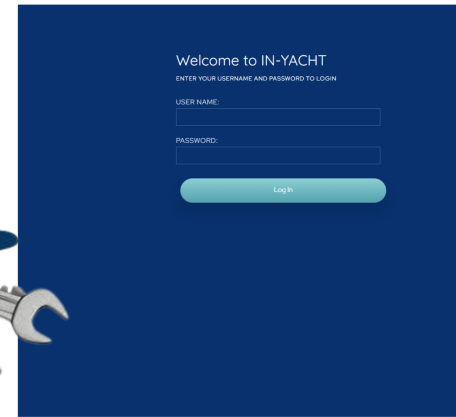

Performance Improvements and Minor Fixes

We released some fixes to minor bugs and applied performance improvements. In the background, we work to ensure and improve the reliability, speed and consistency of the application.

Developed by the industry, for the industry

IT'S
FIXED!
