- **Form to be Filled mandatory for Crew Members**
- **Mobile App New Expense & Budget/APA feature**
- **Mobile App new Open Forms feature**

Click [here](#) and contact us to know more about the update!

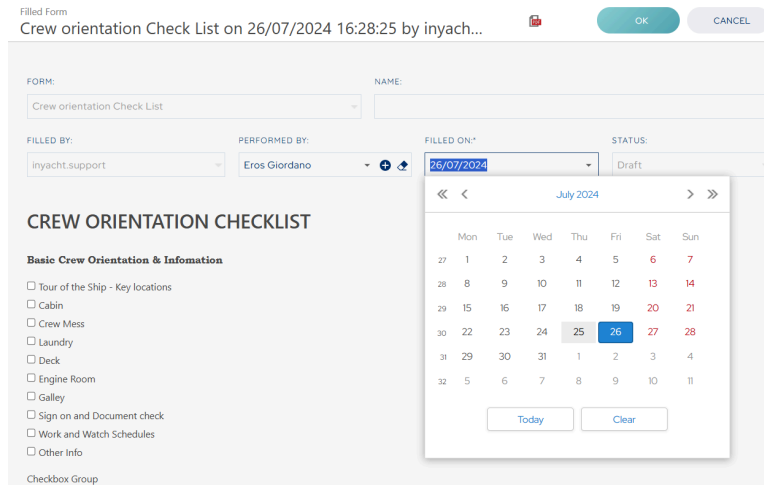

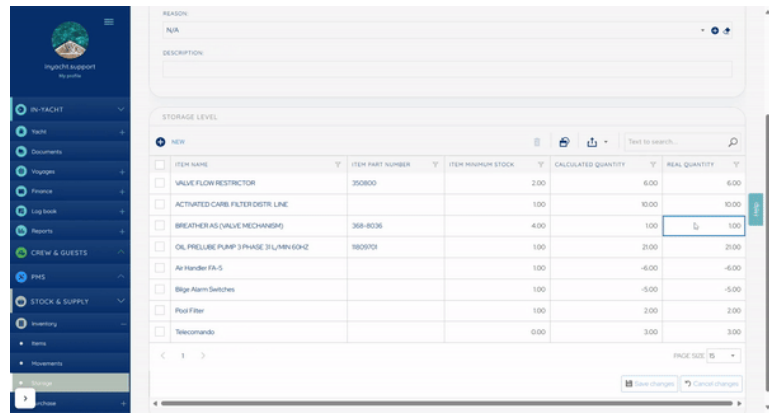

Update measures when closing a related Maintenance Task

Whenever a task is closed as a result of reaching running hours, it will be possible to directly add the hour counter or measurement value from the task close action interface!

Batch Editing and Updating for Budgets, Risk Assessments and Stock supply

When it comes to editing several fields at once, you can now do it quickly and conveniently with the new batch edit and update function! You just have to input your desired modifications and once you are done click on "Save changes". Try it now in Budget details, Storage and Risk Assessment.

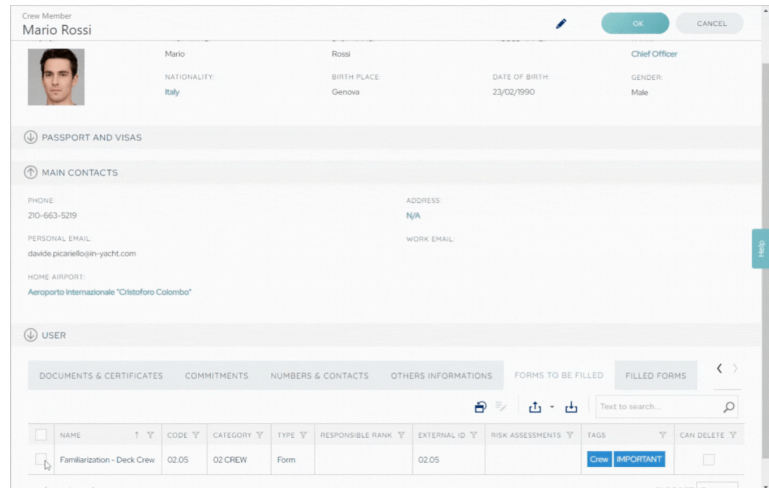

Fill info and Schema of the Forms in a single page

We brought the data relating to the form compilation (such as filled on and performed by) to the same page as the form template. This will make the user experience even smoother and save you time.

Mandatory Filled Form for crew

You will now be able to link the Crew Ranks to the mandatory Forms (that needs to be filled out upon embarkation). From the Crew Profile you will see the list of Templates to be filled, and once the Form has been completed it will automatically move to the Filled Forms section.

| Category | Date | Amount | Status |
|--|------------|---------|--------|
| Your Total: 8142.39 \$ + 3793.80 ₹ + 33288.37 € | | | |
| Internet and cable TV | 16/07/2024 | 50.6 \$ | Draft |
| Mobile phone bills | 16/07/2024 | 11.0 ₹ | Draft |

| Property taxes | 08/07/2024 | - | Draft |
| Home insurance | - | - | Draft |

Mobile App New Finance features

In the Expense section you will now see the Total of your expenses also divided by Currency, plus you can now filter by active Budgets, that will change the total accordingly. This can be especially helpful to have a better overview of the ongoing charter directly from your phone.

Mobile App new Open Forms feature

With this update we added the possibility to consult Forms already filled out from both Web and Mobile Apps but yet to be approved/closed, to allow the possibility to start a form but finish it in a second moment.

| Form Name | Date | Status |
|---|----------|--------|
| Crew orientation Check List | 21/03/24 | 02.06 |
